Should American Slavery to abolished through the force of moral power, a nobler example will have been given to the world than any previous age has ever witnessed. It is in the Colonial possessions of Monarchial Governments that Slavery has been abolished. We are laboring for its extinction in the midst of a great nation, where it is enwoven with every fibre of commercial, political and religious life, and where, with unimportant exceptions, every man is a voter. We do not allude only that we may declare with convincing earnestness the necessity there exists for the promulgation, concealment and without compromise.'

Instruction in the Mathematics.

T. E. SULIOT, a native of Paris, and a graduate of the University of Glasgow, intends teaching the elements of Mathematics, from Geometry to the Differential and Integral Calculus, with their applications to Surveying, the Laws of Forces and of Planetary Motion—Classics and French, in the High School of Franklin, Portage Co., conducted by the Principal Management of the Co., conducted by the Co., con by the Principal, Mr. Pecquett, and his sister, the Superintendent of the Female Department, who taught there last year, with great success, all the branches of an English Education, Music, &c.

Wishing to give their pupils increased facilities and a wider range of subjects, they have proposed to T. E. Sultor to join his labors with theirs. T. E. Suliot does not include Algebra in his list. It will still be taught by Miss Perquett, a superior teacher of that indispensable comple

of an arithmetical course.

These classes, open to young people of both sexes, white or colored, begin on the 20th of August.

The terms will not exceed those of similar estabany conscience, and in matters of religion you must conform to the priests."

On the 1st of July, 1855 that is to say, three hundred years after these Smithfield martyrdoms, the efforts of the pupils after self-improvement,

to prison, because they had assembled together to protest against a legal invasion of their religious feelings and liberties, for the law makers came
forth and said to them, "you must submit to that
kind of Sabbath which we choose to appoint for
you, and if you don't you shall be punished."

NORMAL CLASS

At the Union School, Salem, Columbiana County,

Students will have the opportunity of witnessing the workings of the methods of instruction, government and incitement proposed, in the six spartments of the School.
In connection with the Normal Class, another

will be formed in Practical Science in which all the experiments illustrative of Natural Philosophy and Chemistry will be performed by the Student themselves. The analysis of minerals and soils will occupy

prominent place in the exercises of this class. It is believed that the Salem Union School pos sesses a more extensive and complete apparatus for practical purposes than any other school or seminary in the State. -EXPENSES .-
